

# LOVE OUR UPS RELIABILITY

## Keep your electronics up and your energy use down

Back-UPS models are available with the features and runtime capacity that best suit your application. High performance Back-UPS units deliver cost-cutting energy efficient features. Power saving outlets automatically shut off power to unused devices when your computer is turned off or is in standby, eliminating wasteful electricity drains.

- ✓ Reliable power backup for 24/7 availability
- ✓ Energy-efficient protection for peace of mind
- ✓ Trusted insurance for what matters most

## Choose the smarter, greener and easier Smart-UPS:

Only the new Smart-UPS features the unique battery life expectancy predictor and power meter function to monitor energy usage. Plus a patent-pending "green" mode boosts online efficiencies approaching 99%, reducing utility costs.

### Why your clients will buy the new Smart-UPS:

- ✓ Improved efficiency
- ✓ Better battery management
- ✓ Innovative LCD display
- ✓ Vendor neutral integration
- ✓ Energy savings
